

## **Software Upgrade for the T-Mobile MOTOROLA CLIQ 2™ with MOTOBUR™ 2.0.87**

### **Introduction**

We are pleased to announce the new Android™ 2.3 (Gingerbread) software upgrade for the MOTOROLA CLIQ 2. The software upgrade (Motorola Version.2.0.87.MB611.T-Mobile.en.US) includes numerous enhancements and improvements.

For more information on Motorola updates and repairs, visit us at <http://www.motorola.com/mycliq2>.

### **Who Can Use This Release**

ALL CLIQ 2 users.

### **Key Consideration**

This update includes security enhancements that do not allow you to downgrade to previous versions once the upgrade is complete.

### **Highlights of the Upgrade**

After installing the Android 2.3 (Gingerbread) software release, you will notice:

#### **Enhancements**

<b>Improved Cursor Control</b>	Now you can just touch where you want the cursor to be and then move the blue cursor arrow icon to find the exact spot you want.
<b>Improved Word Selection and Copy Functionality</b>	Words can now be selected via press-hold. A second press of the selected word copies the selected characters.
<b>Number and Symbol Shortcuts</b>	When entering text on the virtual keyboard, certain numbers and symbols shortcuts are available by pressing and holding letter keys.
<b>Sleep Mode</b>	New power off option puts your phone in a low power, wireless-off mode that allows for instant bootup when returning to powered-on mode.
<b>Dock Icon Functionality</b>	The icons at the bottom of each homescreen have been updated. The new customizable Dock includes the app launcher icon on the far right of the four icons, while the other three provide shortcuts to common phone features. These three icons can be customized via pressing and holding an individual icon or by dragging an icon on top of them.
<b>App Groups</b>	New App Menu allows creation of custom app groups, in addition to 3 default groups: All Apps, Recent and Downloaded.
<b>Rich Location App</b>	New app from Motorola compiles thousands of the Internet's most powerful websites, streaming only the most relevant suggestions, activities, promotions, based on your unique preference and location. You can use Yelp reviews and Facebook check-ins to find out what others are recommending.
<b>App and Power Management Details</b>	Manage Applications now provides improved information about what apps and services are

	running, how much memory and CPU time each are using, and the ability to close individual apps and services.
<b>Download Manager App</b>	New App will manage all of your downloads from web browsing and other apps.
<b>New User Interface Icons</b>	New icon style has been introduced to refresh user interface design.
<b>Tasks App Enhancements</b>	The app has been enhanced to include a Task dashboard interface that lets users filter tasks in new ways and share tasks with others.
<b>Browser Search Engine</b>	Browser address bar search options now include Google, Yahoo or Bing.
<b>Emergent Groups and Smart Contacts</b>	Based on usage, participant and addressee suggestions are made in Calendar entries, emails and text messages. You can create groups instantly based on the context of what you're doing. For example, quickly create a group based on a suggestion from a Calendar invitee list or the group of people with whom you're texting.
<b>Updated Calendar Options</b>	<ul style="list-style-type: none"> <li>• Calendar and event times can be displayed in your home time zone when traveling.</li> <li>• Individual reminders can be dismissed, such as dismissing one meeting reminder without dismissing other meeting reminders.</li> <li>• Easy conference dialing allows you to dial the conference number and the meeting code will be automatically entered directly from your Calendar.</li> </ul>
<b>Device Control Capabilities</b>	Through 3LM, new device control options are available including application blacklisting/whitelisting, microphone control, and enabling/disabling enterprise applications.

### Improvements

<b>UI performance Improvements</b>	Various fixes were made to improve stability and performance, including faster phonebook, widget, and wallpaper load times.
<b>Battery Fixes</b>	Improved battery performance due to several bug fixes.
<b>Wi-Fi Calling</b>	Implemented fixes to improve reliability.
<b>Wi-Fi Hotspot Signal</b>	Improved WiFi hotspot signal strength.
<b>Visual Voicemail Greeting</b>	Greeting can be updated from visual voicemail application.

### Instructions for Installing Software

To install this upgrade, you will need a Windows®-powered computer, a micro USB cable, and the Motorola Software Update (MSU) application. Mac OSX is not supported at this time.

For a successful installation, we recommend installing these updates while the battery in your phone is at least 50% charged. Make sure you have an active SIM card installed in your phone and your display is unlocked when you connect your phone to the micro USB cable and launch the MSU application.

To Install the MSU application to your computer:

1. Navigate to <http://moto.ly/cliq2gb> Review the minimum requirements and the micro USB connection instructions on the web page.

2. Select "I have read Step 3" to enable the MSU download button.
3. Download the MSU application to your computer by selecting the orange arrow.
4. Once downloaded, double click the file to install MSU to your computer.
5. Run through the installation wizard and then launch MSU from the Start menu or the shortcut on your desktop.

To install the upgrade to your CLIQ 2:

1. Once MSU is open, connect your phone to the computer using the micro USB cable.
2. Within about 30 seconds, MSU will detect your phone and check for updates.
3. From here, follow the instructions in MSU to install the update.
4. During the update, your phone will power on in boot mode. It is critical that you do not disconnect your device during the update installation process.
5. When the installation is complete, your device will power back on to the home screen and MSU will confirm the update is complete.
6. It is now safe to disconnect your phone from the USB cable and exit MSU.
7. Your phone is now updated with the 2.0.87 software

### **Additional Information**

There is no charge for this upgrade. Subject to change without notice. If you have difficulty with this upgrade, visit us at <http://www.motorola.com/mycliq2>

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Specific functionality and features with each software version of Android may vary. Contact your service provider for details.
